**DETAILED ACTION**

1. Applicant's election of Group III, claims 4-5, 8-11, and 22-23, in Paper filed 17 September 2003 is acknowledged. Applicants traverse the restriction because the examination of claim 13 would not unduly burden the examiner with additional review issues. However, the method of claim 13 is classified separately which would require separate search.

The requirement is still deemed proper and is therefore made FINAL.

2. Amendment filed 17 September 2003 has been entered. Claims 5, 10-11, and 22-23 have been cancelled. Claims 4, 8-9, and 24-29 are examined below.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 8 and 27-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8 and 27-29 are dependent on a canceled claims which is indefinite and confusing.
